The state would like your input on how to better reach our San Bernardino County (SBC) children/youth by increasing Therapeutic Behavioral Services (TBS), improving how SBC provides services, and how SBC works with providers to deliver services.

The goal: Increase access to TBS.

Please come join us & share your comments & ideas by discussing the 4 questions below:

- Are the children and youth in San Bernardino County who are Emily Q class members and who would benefit from TBS, getting TBS?
- Are the children and youth who get TBS experiencing the intended benefits?
- What alternatives to TBS are being provided in the County?
- What can be done to improve the use of TBS and/or alternative behavioral support services in the County?
